

THE CARSON MINT.

The Mining Stock Association of San Francisco has petitioned Congress to investigate the Carson Mint. It is urged that an investigation under the direction of the Secretary of the Treasury would only result in a cost of whitewash, so Congress is asked to do the work. It is charged by the petitioners:

"That the Carson Mint has been the common 'fence' or depository of bullion stolen from the shareholders of mines on the Comstock lode.

"That the bullion was stolen by a nefarious mill ring, which controls and dictates the Federal appointments of the State of Nevada, including the officers of the Carson Mint.

"That the Mint officials so appointed by the powers included in this mill ring are the willing tools of that ring, and prostitute their positions and the United States Mint at Carson to such base use as the mill ring demands: that T. R. Hofer, who is Chief Clerk and Acting Superintendent of the Mint, is also the cashier of the Bullion and Exchange Bank of Carson City, and that the Mint and bank are worked together in harmony to cover the thieving of the mill ring.

"That the abstracts of the records of the Mint which were furnished to the Mining Stock Association do not contain true descriptions of the bars of bullion which were deposited in or purchased by said Mint at certain dates.

"Said abstracts were certified as correct copies of the records of the Mint by T. R. Hofer, and if said abstracts are untrue then they were falsified with malice aforethought for the purpose of misleading the Mining Stock Association, and to hinder and delay it in the prosecution of its search for the bullion stolen by the mill-ring thieves."

UGLY RUMORS RELATING TO CROOKEDNESS IN THE CARSON MINT HAVE BEEN ABOUT FOR YEARS.

It was alleged that certain persons, not officers of the Mint, had access to it at all hours, and that bullion was repeatedly taken to the Mint at night. Some years ago a pretense of investigating some of the charges was made, and a certificate of good character given the officials. Recently rumors of crookedness were revived and the evidence in the Hale & Norcross suit indicates that all is not straight at the Mint. It is said that the Superintendent has not been in the Mint for months; that he spends his time in San Francisco, probably owing to ill health; and that it is run as an "annex" to the Carson bank.

INDEMNITY FOR THE SICILIANS

The report comes from Washington that the Administration is willing to pay to the relatives of the men lynched by a mob at New Orleans, whose Italian citizenship has been established, the sum of 100,000 francs as indemnity. It is understood that the payment of this sum is to be made out of the contingent fund of the Department of State and that Congress will not be called upon to make the appropriation. The payment is to be accomplished by a donation which will make it plain to the Italian Government that the act is not an acknowledgment on the part of the United States of its obligation or liability for the failure of the local authorities at New Orleans to protect the lives of Italian citizens but as an evidence of the good will and friendliness of feeling which have always characterized the relations of the United States Government with that of Italy.

A similar payment was made to the Chinese Minister some years ago as indemnity to the relatives of the Chinese victims of the Rock Springs, Wyoming, massacre. When that was done the Chinese Minister was informed that the act was not to be looked upon in the light of establishing a precedent.

The relations between this Government and Italy have been strained ever since the New Orleans incident. Minister Porter, the American Minister to Rome, remains at home and Baron de Favas, successor has not been appointed by Italy. The country gets along just as well as if it had a Minister at the Quirinal, and the payment of indemnity by our country will justify the belief so prevalent in Italy, that the Sicilians who were lynched in New Orleans did not deserve such a fate, and that the United States Government is satisfied that they were innocent.

WHY SPECKLES SOLD OUT.

Clause Speckles, the sugar man, who made millions by importing sugar free from the Hawaiian Islands, and by combinations with transportation companies which prevented competition, selling it at an immense profit, built a refinery in Philadelphia, in addition to that which he has been running in San Francisco for years. When the Sugar Trust was organized in the East an effort was made to get the Speckles Philadelphia refinery to become a member of it. Speckles swore by the profit which he made in selling sugar on this coast that he would not join the Trust so long as he was "on top of the earth." It appears that the man of sweets did not say what he meant, nor mean what he said. He was simply making a play which was intended to get the Trust to make a more liberal offer for his property. He was successful at the game, as the Trust has succeeded in buying him out. To do so, however, the Trust had to fix a soft place for Mr. Speckles to fall, so Haunmeyer and Seales, the principle men in the Trust, purchased the Speckles plant for the American Sugar Refineries Company, another name for the Trust. This, Mr. Speckles thinks, relieves him from the imputation of prevarication as his antipathy extended only to the Trust, which he did not consider a legal corporation.

It is said in Philadelphia that the small margin of profit at which sugar is now sold did not satisfy Speckles, who realized that the price would not advance while he and the Trust were competitors for the public trade.

News of Importance From Home and Abroad.

MURDER IN VIRGINIA CITY.

The Minnesota State Democratic Convention.

THE HALE AND NORCROSS SUIT.

Congressional Proceedings - The Steamer Golden Rule Burned - The Venezuelan Rumors Unfounded - Destructive Cloudbursts.

Senate Proceedings.

WASHINGTON, March 31.—In the Senate to-day Morgan presented a resolution asking the Finance Committee to inquire into the causes of depression of agriculture and business and the effect of the Silver Act of 1890. He announced that he would call them up for discussion to-morrow, regardless of the feelings of the President or the Democratic Presidential nominee. Morgan's object is to present his views on silver, which he could not do under the rules when Stewart calls up the Silver bill on Monday.

After the reading of Morgan's resolution, and an explanation by that Senator, Sherman said that if the silver question was to be projected upon the Senate, it should be done upon some business proposition, not on complex resolutions involving every variety of theory and fact and every subject in the whole range of financial legislation. He hoped, therefore, that the Senator from Alabama would put in the form of a bill some proposition. He desired the Senate to act upon something that would give relief to the people of the United States.

Morgan replied and after discussing the subject further asked that the resolutions should go over until to-morrow and they were laid on the table accordingly.

House Proceedings.

WASHINGTON, March 31.—After the routine business the House went into Committee of the Whole on the Free Wool bill. Broome of Pennsylvania spoke against the bill.

Whether of Alabama denounced the McKimly Act and favored the pending measure. J. Hanson of Ohio, Stockholder of Mississippi, Kyle of Mississippi, Norton of Missouri and Stont of Michigan spoke in favor of the measure. Herman of Oregon opposed it.

The debate was without incident except for a demonstration early in the afternoon, when Governor McKinley appeared on the floor, and was warmly greeted by his old colleagues. When the committee rose the House took a recess until 8 o'clock this evening.

The Hale & Norcross Suit.

SAN FRANCISCO, March 31.—The trial of the famous suit of M. W. Fox against the Hale & Norcross Mining Company was concluded to-day. Forty days were actually occupied in taking of testimony and in argument. Attorney McKissick in closing his argument devoted his special attention to authorities cited by Attorney Waters in his argument for defendants. He pointed out that many of the decisions quoted had been subsequently overruled and that others were inapplicable. McKissick took issue with opposing counsel in their effort to make a "scapegoat" of H. M. Levy, ex-President of the mine, and to exculpate the rich-offenders, Hayward and Hobart, from all blame. As to the amount paid by the "mill ring" to Levy, he argued there could be no issue raised as the testimony had proved the amount to be \$29,000. By arithmetical analysis of testimony of witnesses for the defense counsel sought to show that there was due from defendants to stockholders \$1,972,425. Judge Hebard took the case under advisement.

Minnesota's Democratic Convention.

ST. PAUL, March 31.—The Minnesota Democratic State Convention held to-day was an enthusiastic Cleveland meeting. Resolutions heartily endorsing Cleveland and instructing delegates to the National Convention to work for him, went through with a rush. On coinage the platform holds in accordance with the traditional policy of our party the use of both gold and silver and that the sole coinage function of the Government is to examine the relative values of metals of coinage established by the commercial world, and if there has been sufficient fluctuations of value of either to make the existing ratios unequal, then readjust ratios so that the number of grains of either metal in a dollar will be equivalent in value, and then permit the free and unrestricted coinage of both metals. A repeal of the Sherman Silver Coinage Act is demanded.

Baseball.

LOS ANGELES, March 31.—San Jose, 4; Los Angeles, 7.

The Golden Rule Burned.

CINCINNATI, March 31.—As the steam Golden Rule was leaving the wharf this afternoon a fire suddenly broke out under the forward hatchway, and a wild panic ensued. Only those nearest the stairway were able to escape. Others rushed to the stern boat and clambered onto the upper deck of the Keystone State. Before all were rescued the flames became so fierce that the Keystone State backed into the river. The stern of the Golden Rule then caught and swung to the wharf boat, where the rest made their escape with the exception of Miss Nellie Maloney, who fell between the boat and barge and was drowned. The losses by the fire aggregate \$50,000.

A Scientific Investigation.

PORT TOWNSEND, Wn., March 31.—The United States Fish Commission steamer Albatross and revenue cutter Corwin left to-day for Alaska on a scientific expedition to investigate the habits of fur seals off the breeding grounds. Both vessels took sealing boats, naturalists and seal hunters. It is their intention to follow the herds and kill seals in open sea to ascertain what percentage thus killed are lost. They will investigate the matter fully in connection with the British Commission.

Fatal Shooting in Virginia.

VIRGINIA CITY, Nev., March 31.—Jerry Barry shot through the head and fatally wounded August Bonheben in Leiguan's coffee store this evening. Barry wanted to borrow fifty dollars from Leiguan, and being refused, drew a pistol and threatened to blow Leiguan's brains out. Bonheben tried to take the pistol from him and in the scuffle Barry shot him. Barry escaped and is still at large.

Venezuelan Rumors Unfounded.

WASHINGTON, March 31.—Venezuelan Minister Perez to-day received orders from his government by cable to declare the recently published statements about Venezuela unfounded; that there has been no battle fought near Caracas, and that peace is almost restored. The new cabinet of Palacio enjoys the confidence of the people, and the situation is far from being a violent one.

Damaging Cloudburst.

MENCKEN, Cal., March 31.—A cloudburst occurred in the mountains near Coulterville yesterday. Water came down in torrents from the clouds, washing away fences, uprooting trees, etc. It lasted for half an hour and raised Merced river several feet.

To Protect Exhibitors.

WASHINGTON, March 31.—The House to-day passed a bill to protect foreign exhibitors at the World's Fair from prosecution for exhibiting wares protected by American patents and trade marks.

Stabbing Affray.

WINNEMUECA, March 31.—Two sheep shearers, named A. A. Bell and Martinez, quarreled over a game of cards at Paradise Hill to-day, when Martinez stabbed Bell in the left shoulder, inflicting an ugly but not dangerous wound.

The Kentucky State Republican Convention.

The Kentucky State Republican Convention, elected delegates to the Minneapolis Convention, and recommended that they vote for Harrison. Every Republican delegate chosen so far is either instructed or recommended to vote for Harrison, who is certain to be nominated, and the pretended friends of silver will endorse the nomination and advocate his election. Barnum, himself the prince of humbugs, was right when he said the American people like to be humbugged and were willing to pay for it.

Prosecuting Attorney Longenecker of Chicago struck M. H. Salt, a reporter, who is engaged in writing up the hoodie business. Salt wrote an article for his paper, charging Longenecker with being a hoodler himself, and afraid to push the cases against the Alhermen. Longenecker threatens Salt with criminal libel and Salt threatens Longenecker with arrest.

Peculiar

Many peculiar points make Hood's Sarsaparilla superior to all other medicines. Peculiar in combination, proportion, and preparation of ingredients, Hood's Sarsaparilla possesses the full curative value of the best known remedies of the vegetable kingdom. Peculiar in its strength and economy—Hood's Sarsaparilla is the only medicine of which can truly be said, "One Hundred Doses One Dollar." Medicines in larger and smaller bottles require larger doses, and do not produce as good results as Hood's. Peculiar in its medicinal merits. Hood's Sarsaparilla accomplishes cures hitherto unknown, and has won for itself the title of "The greatest blood purifier ever discovered."

Peculiar in its "good name"—there is now no name of Hood's Sarsaparilla Lowell, where it is made, and of other blood purifiers. Peculiar in its phenomenal record of sales abroad, no other preparation has ever attained such popularity in so short a time, and retained its popularity and confidence among all classes of people so steadfastly. Do not be induced to buy other preparations, but be sure to get the Peculiar Medicine, Hood's Sarsaparilla. Sold by druggists, \$1; six for \$5. Prepared only by C. I. HOOD & CO., Apothecaries, Lowell, Mass. 100 Doses One Dollar

## BREVITIES.

Bargains in GARDEN HOSE at Lange & Schmitt's.  
Mrs. G. H. Taylor has returned from a visit to California.

Milk cows and young cattle for sale. See advertisement.

Ten cars of beef cattle arrived from the North on the N.C.O. yesterday.

United States Marshal Moore came down from Virginia City last night.

A. Drobnick departed for San Francisco last night to be gone about a week.

Who has Leghorn and Black Spanish eggs to sell? See fifty-cent column.

Lawn mowers, garden tools and paint and oils a specialty at Lange & Schmitt's.

Plumbing, tinning and pipe work done at the lowest possible prices by Lange & Schmitt.

Arthur Donnelly, who has had a severe attack of pneumonia, is able to be on the streets again.

Superintendent of Public Instruction Orvis Ring came down from Carson on the V. & T. last evening.

General Powning sold four lots in his Addition yesterday—two to Frank Barnes and two to George Mosher.

The Austin Advocate says about forty persons are employed in and about the Pittsburg mines in Northern Lander.

Mrs. E. Pitt Stevens the great temperance speaker, will spend a few days in Reno soon. Everyone should hear her.

Twaddle Brothers have sold their hay to Louis Dean, who intends feeding it to a band of cattle which he is now feeding at Lovelock.

The deficiency between the revenues and expenditures has, in ten years, brought upon Indiana a debt something like \$30,000,000.

The Democratic State Central Committee will meet here to-morrow for the purpose of determining when and where to hold a State Convention.

An instruction will be given after the Litany service this evening at Trinity Church. It is hoped that every communicant will make an effort to be present.

The Elko Independent says a robber at Ogden threw a brick in the window of a jewelry store, picked up a tray containing eleven watches and escaped with the plunder.

A wild mining excitement has broken out at Lordsburg, a little town about midway between Los Angeles and San Bernardino. Assays of the rock give \$1,800 to the ton in silver.

The Truckee Republican says a bright little Indian boy attempted to climb on a moving train at Boca. He fell directly under the wheels and was horribly mangled.

Hon. J. W. Haines of Douglas, one of the World's Fair Commissioners, left for Chicago yesterday. He was joined at Elko by Hon. George Russell, who is also a Commissioner.

A special train of nineteen cars, loaded with beef cattle left here yesterday for San Francisco. The cattle were shipped originally from Winnemucca and Iron Point, Humboldt county.

Hon. George E. Spencer, formerly United States Senator from Alabama, and now a resident of Kingston, Lander county, is suggested by the Austin Advocate as a delegate to the Republican National Convention.

An inverted rainbow was reported as having been seen at Jefferson, Iowa, last week. This is considered unaccountable as Iowa is a Prohibition State. Had it been seen in Illinois or Missouri, everybody would know the cause.

Senator Teller of Colorado claims a majority of two in favor of free coinage in the Senate. The anti-silver men claim a tie vote with the power to decide in Vice President Morton's hands, and he would vote against the bill.

Postmaster Nishy figured up his receipts for the year ending March 31st, 1892, last night and found that they amounted to \$8,417.80. This is the largest amount ever collected in the office since postage was reduced to two cents.

The close season for trout expired a midnight. Everybody who feels disposed can fish to-day, but it depends on circumstances whether they catch any or not. The transportation companies can now carry fish without violating the law.

The fact of Gould, Huntington, Towne and other railroad magnates being at El Paso, has set moving speculations regarding their schemes. It is not known what is contemplated, if anything, by this meeting, although there is much guess work.

Attention is directed to the advertisement of the Verdi Mill Company, which is one of the most extensive manufacturers of dressed lumber of all kinds, sash, flooring, rustic, pickets, lath, shingles, fruit and packing boxes on the coast. The company will give estimates for common and dressed lumber on application and guarantee fair dealing.

The Humboldt Guard elected the following officers for this year: Ferd Reid, Captain; S. J. Anderson, First Lieutenant; A. J. Morrison and George Rose, Second Lieutenants; J. C. Hadley, John Albertson, Paul J. Smith and D. J. Hadley, Sergeants; A. D. Wilcox, J. W. Garbrie, Joseph Alexander and Pablo Lavigne, Jr., Corporals.

## THE HIGH LINE CANAL.

Cost, Profit, Details of Construction.

Truckee Republican.

"The construction of a High Line canal is the general topic of conversation at Reno. The location which is most popular is to take the water out of the river at a point near Cuba, follow the northern bank of the river down the canyon, pass through Crystal Peak, run along the high bluff four miles north of Reno, and thence sweep northward until the divide is reached overlooking Lemmon Valley. From there the water would be distributed on down grades to Lemmon, Long, Prosser, Spanish and other valleys. The canal would at first have a width of twenty feet, and a depth of about four feet. It would carry 21,000 inches of water. Along the steep banks of the Truckee, and in various portions of the route, dikes would be constructed, requiring considerable

## QUANTITIES OF LUMBER.

"It is believed the owners of about 80,000 acres of land would subscribe for stock, to the full value of their lands. The railroad company own 20,000 acres, which they could well afford to subscribe to the enterprise on a basis of \$1.25 per acre. The vast increase of population, with the necessary incidents of increased passenger and freight traffic, would make the investment a most profitable one. Frank G. Newlands owns 20,000 acres, which would doubtless be offered in exchange for stock, at about actual cost. Mr. Newlands has purchased these stocks with the sole view of

## BUILDING UP THE STATE.

Of his adoption, and with no desire for speculation or personal gain. He is a candidate for Congress, and proposes to devastate from Nevada's established rule of buying votes for coin. He prefers, rather, to invest his money liberally in movements calculated to benefit the State, and trust to the honesty and intelligence of the voters for his election. Other wealthy and liberal minded citizens have purchased large tracts in the regions to be irrigated, and it is believed they will unanimously give their acres for shares of stock. If the capital stock should be placed at \$1,000,000, and 80,000 acres of land could be acquired by simply issuing shares of stock, the foundation would be laid for

## FLOATING THE ENTIRE STOCK.

"Large numbers of men will be glad to work on the canal and accept stock in payment for their labor. Reno's citizens will doubtless subscribe \$22,000 in cash. George Schaffer, the public-spirited millman of Truckee, has signified his willingness to subscribe \$20,000 and pay for his stock in lumber. It is believed that several of the Truckee millowners will want stock on similar terms. Then there are reservoir sites in the mountains around Truckee that have already been purchased at a cost of about \$100,000. All these storage reservoirs and reservoir sites will be subscribed at about actual cost. They were purchased by Mr. Newlands and others for the express purpose of furthering just such a scheme.

"If the proposition meets with the local support outlined, Eastern or English capitalists will not hesitate to take the rest of the stock as soon as it is placed on the market.

"The business end of the scheme is primarily the sale of water. Seventy-five thousand acres of first-class land can be irrigated, and at \$2 per annum would yield \$150,000 income annually. "These figures are sufficiently dazzling to enlist capital, even if there were no other sources of revenue. Lands around Reno pay \$5 per acre annually, so the proposed \$2 cannot be deemed an exorbitant charge for water. The 80,000 acres of land owned by the corporation would be sold at a modest figure, say \$12.50 per acre. As the land will be worth \$40 per acre the moment water can reach it, an offer to sell in small lots at \$12.50 per acre would insure the prompt sale of the entire tract to home-seekers. Such a sale would bring \$75,000 into the treasury of the corporation at once, and each acre sold would thereafter yield a rental of \$2. But the profits of the corporation would not be limited to these sources of revenue. The canal will be admirably adapted to furnishing water power. Opposite Reno it will be nearly or quite 500 feet above the level of the town. The immediate proximity of such a water power ought to make Reno the leading manufacturing city on the coast (excepting Truckee, of course). Enough water can be stored to irrigate 500,000 acres of desert land, furnish 6,000-horse power for manufacturing purposes, and still allow the natural flow to pass down the river.

## THE COST.

"Careful estimates of the cost of the ditch by four different surveys show that \$500,000 will build the ditch for its utmost length, which is sixty miles. It would reach Lemmon Valley in a distance of thirty miles. Cross-section surveys, with all necessary maps and information, will be furnished to parties who desire to invest. From these any competent engineer can compute the exact cost of the canal. The reservoir sites, storage dams, sawmills, timber lands and everything else that could place the scheme on the grandest paying basis, will not cost to exceed another half million. There are no costly dams to be constructed, for Tahoe, Donner, Webber and Independence lakes have adequate dams already built. Even the \$1,000,000 need not be used at the outset, but so long as it will pay big dividends there is little doubt the entire capital will be subscribed. The enterprise will be rapidly pushed, and the next thirty days will show great progress. It is believed that the entire canal will be constructed within four months from date."

A reign of terror prevails in parts of Wyoming. Range rustlers are said to be shooting down horses and cattle and scenes of carnage lie on the ground. Thieves are running Johnson, Natrons and Converse counties, and nearly every prominent range owner has been warned to keep out of those counties under penalty of death.

Highest of all in Leavening Power.—Latest U. S. Gov't Report.

# Royal Baking Powder

## ABSOLUTELY PURE

## THE MINSTRELS.

The Georgia's Delight a Large Audience.

The Raleigh Chronicle says: The Georgia Minstrels gave an excellent entertainment to a large audience at Metropolitan Hall last evening. The programme, which was well arranged, was rendered with a dash that kept the audience in sympathy with the performers. When the Kersand's mouth yawned the audience fell back in alarm, but it quietly recovered to laugh at Tom Brown, one of the cleverest Ethiopian comedians in the country. The black Patti gave a wonderful impersonation of female character. A very neat act was the drill and singing of the drum majors and Pullman car porters. The wind-up was a surprisingly good farce, something not often found in a minstrel programme.

The Georgia's will appear at McKissick's Opera House next Monday, April 4th.

Dixon Bros. yesterday killed what is said to be the largest porker ever killed in the State. It was eleven months old and weighed, dressed, 570 pounds. It can be seen at their shop, corner Sierra street and Commercial row. The hog was raised by Mr. Joy, Superintendent of the County Hospital.

F. O. Updike finished painting and kalsomining the Wine House yesterday. It is a neat job. Now that spring is here, the season of cleaning and improving dwellings and business houses, those contemplating having anything done in Mr. Updike's line cannot do better than to engage his services. He employs none but first-class artists.

About eighty men and a large number of teams are at work on the Honey Lake Valley Land & Water Company's storage reservoir. The reservoir will not be completed this year, but it is expected to be in a condition to catch and store water next winter. The land which is to be brought under cultivation by this enterprise is free of alkali and far superior to that in the vicinity of Amedeo.

S. Emrich and his corps of clerks were kept busy all day yesterday unpacking the large stock of drygoods that he purchased while in San Francisco. The lady who goes into his store and leaves without buying something after looking at his new stock, will be entitled to a pass to the World's Fair to pose as one of the many curiosities from Nevada.

The Nevada Educational Society will hold its next meeting here to-morrow at 1 o'clock p. m. at the High School building. School Principals from all parts of the State and members of the Faculty of the State University compose the Society. The relation of the public schools to the State University, and the matter of preparing an educational exhibit for the World's Fair will be considered.

The Truckee Republican says it is generally believed among railroad men that conductors will have their salaries raised on the Central Pacific and be required to give bonds for good behavior. Of the six passenger conductors on the Truckee Division five have homes and families in Winnemucca, and while they have a lay over every three days at Truckee they do not get to stop at Winnemucca. A movement is being inaugurated to have the runs so changed that the long stop over will be made at Winnemucca.

The Movement of the Sun. Professor Duner, of Germany, has discovered that the revolution of the sun as shown by the movement at its equator is once for twenty-five days and twelve hours of our time, while at or near its poles the revolution may be only once in forty-six of our days. This would only be possible with a movable and gaseous surface like that of the sun.—New York Times.

## A Woman for President.

John Hooker, of Hartford, suggests that as we have had twenty-three men presidents already, it is fitting that a woman should now be called to the place. He names Mary A. Livermore as a desirable candidate, and says he is confident that she would govern the country as well as George Washington ever did or any other man.—Exchange.

Ada Rehan, the actress, is said to be a rich woman. She owns enough stock in a New York railroad to give her a seat among the directors, has several good mortgages, and owns a \$30,000 house in an excellent location in New York.

Mme. Bodichon bequeathed \$5,000 to Girton college and \$5,000 to Bedford college, both English schools for women. Mrs. Dickinson, of Fairport, N. Y., has just given \$40,000 to Oberlin college to be added to the general endowment fund.

Always pack your freezer before putting in the mixture to be frozen. This will do away with many crushing disappointments, in the form of lumps of salt in the sherbet or cream.

The girls of the Woman's college, Baltimore, have decided to don the cap and gown. They are to be worn on all college days and on all college occasions.

If the feet become frostbitten soak them for one-half hour in a strong, hot solution of alum water, and if one application is not enough two will be a cure.

Buffon told his friend that his wife had a great influence over his composition. "I am always refreshed and aided by her advice."

## To the Public.

Having purchased from W. S. Bender the photograph gallery, at the corner of 1st and Virginia streets, I beg to inform the public that the business will be hereafter conducted under the name of The Riverside Photo Gallery. I have secured the services of Mr. Albert L. Evans, a first-class artist lately from Salt Lake City and will re-fit and furnish the gallery in a first class manner, and guarantee satisfaction. The gallery will be reopened for business Saturday next, April 2.

m291w G. E. HOLKSWORTH.

## Public Notice.

The road from Vista to Wadsworth is now and has been out of order for six months. The undersigned kept that road in good repair for \$25 per year, and was willing to give bonds to keep the road in order at that rate. Now the road costs the county about \$350 a year and is not kept in repair.

PATRICK MCCABRAN, FERNAN RANCH, Washoe Co., Nev. March 18, 1892. 2w

## Democratic Committee Meeting.

A meeting of the Democratic State Central Committee will be held at Reno, Saturday, April 21, at 12 a. m. for the purpose of designating a time and place for holding a State Convention, and for the transaction of such other business as may properly come before the meeting.

JOHN H. DENNIS, Chairman. P. J. DUNNE, Secretary. mar14d

## Stray Horses.

Strayed from my ranch on the Virginia road, Sunday night, March 27th, one large brown horse, branded with a heart on the right shoulder, two large brown mares, one gray horse and one sorrel horse. A liberal reward will be paid for the delivery of the horses at Hyman's stables, Reno, m31it E. F. QUESTA.

## Humbug.

It's sound old fashion, and expresses just what you meant, after having purchased something of no account. Now there is no humbug about Simmons Liver Regulator. Some imitation or substitute may be offered you instead, but none will give the relief from indigestion, dyspepsia and biliousness like the genuine Simmons Liver Regulator. You know it by the Z on every package, and the relief it gives.

When baby was sick, we gave her Castoria. When she was a Child, she cried for Castoria. When she became Miss, she clung to Castoria. When she had Children, she gave them Castoria.

## BUSINESS, LOCAL AND NEWS ITEMS

For fine boots and shoes go to H. F. Favola.

## MISCELLANEOUS.

A LADY WITH—

A Baby Complexion.

—CAUSED BY USING—

MRS. GRAHAM'S

CUCUMBER AND ELDER

FLOWER CREAM.

After using it daily for six months a lady's skin will be as pink, soft and velvety as pure and clear as the most delicious baby's skin. It is not an artificial cosmetic. It cleanses, refines, purifies and whitens. It feeds and nourishes the skin, thus banishing wrinkles, marks and scars. It is harmless as dew and as nourishing to the skin as new to the flower. Price, \$1. Bottle lasts three months.

SAMPLE BOTTLE mailed free to any lady on receipt of ten cents in stamps to pay for postage and packing. Lady agents wanted. MRS. GRAYMAN GRAHAM, "Beauty Doctor," 3425 State Street, Chicago, Illinois.

# "August Flower"

What is this query perpetually on your little boy's lips. And he is no worse than the bigger, older, balder-headed boys. Life is an interrogation point. "What is it for?" we continually cry from the cradle to the grave. So with this little introductory sermon we turn and ask: "What is August Flower for?" As easily answered as asked: It is for Dyspepsia. It is a special remedy for the Stomach and Liver. Nothing more than this; but this brimful. We believe August Flower cures Dyspepsia. We know it will. We have reasons for knowing it. Twenty years ago it started in a small country town. To-day it has an honored place in every city and country store, possesses one of the largest manufacturing plants in the country and sells everywhere. Why is this? The reason is as simple as a child's thought. It is honest, does one thing, and does it right along—it cures Dyspepsia.

G. G. GREEN, Sole Man'fr, Woodbury, N. J.

## SOCIETIES.

### CATHOLIC BENEVOLENT LEGION.

Brotherhood Council, No. 274, C. B. L. meets first and third Sundays of each month at 7:30 P. M. in Thompson's Hall, Virginia Street. JAMES GRIFIN, President. J. H. GAIN, Secretary.
